PRESS RELEASE

VILLAGE OF GEORGETOWN – ECONOMIC DEVELOPMENT TEAM SEEKS INPUT ON CREATING AN ENTREPRENEUR CENTER

August 18, 2021 : The Village of Georgetown – Economic Development Team is always looking for ways to support new and growing entrepreneurs as well as opportunities to upskill our workforce. “The Village Administration is diligently working to enhance existing infrastructure and programs that will promote and support growth and revitalization throughout the village” added Mayor Cahall.

As communities are continuing to navigate the effects of COVID19 and business, residents and schools continue to work through the changes that COVID19 has brought to our environment, the Georgetown Economic Development Team would like to explore the idea of creating a space that supports training, co-working, makerspaces and/or incubator spaces.

Your input will be used to determine the demand for various programs, services, equipment, and spaces that may be implemented, pending the results of this evaluation.

The survey can be found at www.georgetownohio.gov/economic-development or at: [Supporting Entrepreneurship Survey](#) and includes 5 (five) questions that take less than 5 (five) minutes to complete.

The Village of Georgetown, Economic Development Team appreciates the support of the Southern Hills Career & Tech Center, Future Plans, Adams Brown Community Action Partnership and Ohio Means Jobs. It is with great partnerships, like these, that provides the stability and network needed to transition entrepreneurs to their greatest growth potential!

end.
